Fun with Fractions!

Teach your child about fractions with these fruit kabobs! Fill a kabob with 4 pieces of bananas and 4 pieces of apple and explain that it is 1/2 banana and 1/2 apple. Challenge your child with different fractions on the stick and have fun! (If you don't have a skewer, you can just place them on plates)

Fruit Kabobs with Strawberry Dip

Recipe from snap4CT.com

You can make this simple fruit kabob recipe with any fruit of your choice! Check out what fruits are in season in CT and get creative with your own variation of this delicious treat!

Makes: 6 kabobs

Ingredients
1 cup yogurt, low-fat vanilla
2 pears, cored and cut into 1-inch cubes
3 cups strawberries, stems removed
2 bananas, cut into 1-inch slices
1 can (14 oz) pineapple chunks, canned in their own juice, drained
6 wooden skewers

Instructions
1. Cut up one cup of strawberries into small slices. In a small bowl, mash slices with a fork.
2. In another small bowl, combine the vanilla yogurt and mashed strawberry slices. Set aside.
3. Thread the fruits by alternating the pears, strawberries, bananas, and pineapple onto the skewers.
4. Serve fruit skewers with a dollop of the strawberry sauce on the side.

Note: If you do not have wooden skewers, you can simply dip the pieces of fruit in the sauce or make a fruit salad!
Fractions and Fruits!

Color in the fruits with the correct fractions

2/3 of the bananas

2/5 of strawberries

1/3 of the watermelon seeds

1/4 of orange

1/3 of the pears

1/2 of the apples
